Eversource Energy
Regulatory Planning
Westwood, MA

Dear Selection Committee,

I am writing to express my strong interest in the Analyst, Regulatory Planning position at Eversource Energy. As New England works through rising energy costs, grid modernization, and clean energy goals, the decisions that come out of regulatory proceedings shape what customers pay and how reliable their service is. I am drawn to a role that keeps those proceedings organized and on schedule, because getting filings right and meeting every obligation is how a utility earns the confidence of regulators and the communities it serves.

At Holland & Knight, I track federal and state legislative and regulatory developments, including energy and infrastructure issues, and flag new requirements and deadlines for attorneys as they emerge. That work has made me a careful reader of orders, rules, and procedural notices, and it has taught me to turn what I find into trackers and status updates that a busy team can rely on. Co-authoring client alerts with partners has also trained me to check documents for completeness and consistency before they go out, and to keep every reviewer informed as a deadline approaches.

I bring a strong respect for process. Working at Georgetown's student-run credit union, a regulated financial institution, taught me to follow written procedures precisely, document my work, and escalate issues early with clear context. In Representative DeGette's office, I tracked bills and hearing schedules and learned how quickly priorities shift when a calendar changes. Researching legislation across many states for the National Endowment for Financial Education showed me how differently jurisdictions handle the same question, which I expect will help me keep Connecticut, Massachusetts, and New Hampshire requirements straight. I use AI tools to work efficiently while verifying everything.

I would be excited to help Eversource's Regulatory Planning team monitor dockets, coordinate filings, maintain trackers and repositories, and support Regulatory Affairs and Legal in meeting every deadline. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your team.

Sincerely,
Adeline Bean
