Freddie Mac
Multifamily Guide & Compliance Team
McLean, VA

Dear Selection Committee,

I am writing to express my strong interest in the Multifamily Analyst position on Freddie Mac's Guide and Compliance team. Freddie Mac's mission to make home possible includes the rental housing that millions of families depend on, and I am drawn to a role that keeps that system working by making sure the Seller/Servicer Guide is clear, accurate, and consistent. Turning complex policy decisions into precise written rules that lenders and servicers can follow is exactly the kind of careful, high-impact work I want to begin my career doing.

My interest in financial services began at Georgetown's student-run credit union, a fully operational, member-owned institution. Serving members every week taught me that written procedures matter: when a policy is clear, people follow it, and when it is ambiguous, errors and frustration follow. I learned to explain loan and deposit products in plain language and to escalate exceptions with the right context, and I came away with real respect for how institutions translate regulation into everyday practice. I also helped create member-education content, which taught me to write about financial products for readers who are not experts.

At Holland & Knight, much of my work involves reading long legislative and regulatory texts in financial services and housing and rewriting them as clear, structured summaries for attorneys and clients. Co-authoring client alerts with partners has trained me as an editor: I check every defined term, keep style consistent across sections, and move a document through several reviewers without losing accuracy. I also coordinate open items and deadlines across colleagues in different groups, which has prepared me to work with Legal, Risk, Operations, and business teams on a shared publication schedule. I use AI tools to work efficiently, always verifying against primary sources.

I would be excited to help draft and edit Guide Bulletins and chapters, keep forms and procedures current, and support the team's Seller/Servicer risk management work. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your team.

Sincerely,
Adeline Bean
