Metrc
Government Affairs (Western U.S.)
Remote

Dear Selection Committee,

I am writing to express my strong interest in the Government Affairs Associate position covering the western half of the United States at Metrc. Metrc's work helps states regulate a new and fast-changing industry with transparency and accountability, and I am drawn to a role that sits exactly where technology and public policy meet. Explaining to legislators and regulators how a well-designed system can support their goals is the kind of government affairs work I find most compelling.

At Holland & Knight, I track and analyze legislative and regulatory developments across a range of policy areas, including technology, financial services, and state and local issues, and I write briefings that help attorneys and clients understand how a proposal could affect their business. That work has taught me to read legislation and regulations closely, to identify the provisions that truly matter, and to explain complex issues in plain language. I have also prepared talking points and background materials for meetings with elected officials and staff, which has shown me how much careful preparation shapes the outcome of a conversation.

My interest in state policy runs deep. Researching legislation across many state legislatures for the National Endowment for Financial Education taught me how differently states approach the same question, and how important it is to understand each state's process and personalities. In the office of Representative DeGette of Colorado, I saw how responsive, well-informed outreach builds lasting relationships with policymakers. Working at Georgetown's student-run credit union, a regulated financial institution, has given me respect for compliance and for following rules precisely. I am comfortable with travel and with taking ownership in a fast-moving company, and I use AI tools to work efficiently while verifying everything.

I would be excited to support Metrc's Government Affairs Director in the western states, help coordinate with consultants and lobbyists, and track legislation and regulatory meetings in your territory. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your team.

Sincerely,
Adeline Bean
