Rowan Digital Infrastructure
Regulatory Affairs & Public Policy
Denver, Colorado

Dear Selection Committee,

I am writing to express my strong interest in the Regulatory Affairs & Public Policy Associate position at Rowan Digital Infrastructure. As a Georgetown University senior with experience in policy research, regulatory analysis, and strategic communications, I am eager to apply those skills where policy directly determines whether critical infrastructure gets built. Rowan's pace of growth, its commitment to sustainable data center development, and a role designed to translate business needs into policy and regulatory action are what draw me to this opportunity. I am also excited about the chance to build my career in Denver.

As a Public Policy and Regulation Intern at Holland & Knight LLP, I have written more than 50 research memos on legislative and regulatory developments across energy and critical infrastructure, critical supply chains, state and local policy, financial services, and national security. Much of that work is the core of this role: monitoring bills and regulatory proceedings, analyzing what they mean for clients' operations, and turning the findings into clear memoranda and executive summaries. I also deliver weekly briefings to practice group leaders and former Members of Congress. Earlier, as a Legislative Intern for Representative Diana DeGette, I handled constituent casework on regional energy access and environmental concerns and researched energy and appropriations legislation, which showed me how infrastructure policy lands in real communities.

I also have experience tracking policy across many states at once. At the National Endowment for Financial Education, I analyzed more than 70 state bills, authored a report on state legislative trends, and supported stakeholder outreach that increased partner retention by 50 percent and new outreach by 200 percent. Co-authoring published client alerts with Holland & Knight partners strengthened my ability to produce polished written materials quickly. As co-founder, Executive Editor, and Treasurer of Georgetown's Women in Law Club and Undergraduate Law Journal, I coordinate a team and manage many deadlines at once. That would carry over to working across Rowan's Sites & Origination, Permitting, Energy, and Legal teams.

I would be excited to help Rowan anticipate policy risk and move projects forward faster. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your Regulatory Affairs & Public Policy team.

Sincerely,
Adeline Bean
