Teneo
Media Analyst Program
New York, NY

Dear Selection Committee,

I am writing to express my strong interest in the Media Analyst position at Teneo in New York, beginning in July 2027. Teneo's role as an advisor to CEOs and boards at their most consequential moments is exactly the kind of work I hope to learn, and the Media Analyst program's path into Strategy and Communications, Management Consulting, Risk, or Financial Advisory is a rare opportunity to build a foundation across all of them. I am graduating from Georgetown in May 2027, so the timing fits my plans well.

Reading the news closely and explaining why it matters is already a core part of my work. At Holland & Knight, I compile weekly briefings for practice leaders and former Members of Congress, which means scanning coverage, hearings, and agency activity, deciding what is truly significant for each audience, and flagging it quickly. Co-authoring client alerts with partners has trained me to write accurately and concisely under deadline, and to adjust tone for executives who have only a minute to read. I have learned that the most useful summary is not the longest one, but the one that tells a reader what changed and what to watch next.

I am especially interested in how media coverage, policy, and markets influence each other. My economics coursework at Colgate and my financial services research at Holland & Knight have deepened my interest in capital markets and financial communications, and at Georgetown's student-run credit union I create social media and member-education content, which taught me how audiences actually respond to messages. In Representative DeGette's office, I tracked bills and hearing schedules and drafted constituent correspondence, and I saw how quickly public attention can shape a policy debate. I am comfortable with early starts and dependable daily deadlines, and I use AI tools to work efficiently while verifying every source.

I would be excited to support Teneo's client teams with real-time monitoring, daily reports, social media analysis, and research briefings. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your team.

Sincerely,
Adeline Bean
