Anduril Industries
Early Career Talent, Business Operations
Washington, D.C.

Dear Selection Committee,

I am writing to express my strong interest in the 2027 Early Career Business Operations Associate position at Anduril Industries. As a Georgetown University senior with experience in policy research, regulatory analysis, and strategic communications, I have spent the past two years helping senior decision-makers understand complex problems and act on them. I am drawn to Anduril's mission of delivering capability to U.S. and allied forces in months rather than years, and to a business operations role that sits close to leadership and turns analysis into decisions.

As a Public Policy and Regulation Intern at Holland & Knight LLP, I have written more than 50 research memos on legislative and regulatory developments across financial services, emerging technology, national security, and critical supply chains, which has given me a working understanding of the defense, technology, and industrial-base issues that shape Anduril's operating environment. Each week I brief practice group leaders and former Members of Congress, distilling extensive research into concise, executive-ready takeaways, which is the same kind of storytelling this role requires. Previously, as a Legislative Intern in the U.S. House of Representatives, I researched appropriations, financial services, and emerging technology issues. That work taught me to approach unfamiliar questions systematically and prioritize what matters most.

I also bring a record of measurable operational results. As a Public Policy and Executive Intern at the National Endowment for Financial Education, I built media contact lists of more than 400 entries and helped increase partner retention by 50 percent and new outreach by 200 percent. At the Georgetown University Alumni & Student Federal Credit Union, I balance a cash drawer and member service with marketing content that averages more than 15,000 impressions. As co-founder and Treasurer of Georgetown's Women in Law Club and Undergraduate Law Journal, I manage budgets and lead an editorial team. I am eager to build on my Excel and PowerPoint skills with the enterprise data tools Anduril's teams use.

I would be excited to begin my career on a team that values ownership, a bias for action, and impact on national security. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to Anduril's business operations.

Sincerely,
Adeline Bean
