Crusoe
Legal & Procurement, Contracts (IT, Network & Cloud)
Denver, CO

Dear Selection Committee,

I am writing to express my strong interest in the Contracts Coordinator position at Crusoe in Denver. Crusoe's energy-first approach to AI infrastructure sits at the intersection of two issues I follow closely in my policy work, power and technology, and I would love to help the company move quickly by keeping its technology agreements organized, compliant, and on schedule. I am especially drawn to a role that bridges engineering needs and legal structure, because translating between specialists is the part of my work I enjoy most.

At Holland & Knight, I support attorneys and policy advisors at a national law firm, and that environment has taught me how much careful document management matters. I manage drafts, edits, and versions in iManage, track open items and deadlines across several attorneys, and coordinate reviews so that nothing goes out late or in the wrong form. Researching technology, energy, and data issues in Congress and federal agencies has also given me a working familiarity with privacy and security frameworks, and I know when a question needs to be escalated to counsel rather than answered on my own.

I bring the same discipline from operational roles. At Georgetown's student-run credit union, I follow written procedures and controls every shift, verify identity, and document and escalate exceptions, which has taught me that good process protects both the institution and the people it serves. In Representative DeGette's office, I logged and routed casework and followed each matter until it closed. I learn new systems quickly, and I am eager to become a strong user of Ironclad and your procurement tools and to help train colleagues on the intake process. I take pride in keeping records that anyone on the team can pick up and understand immediately.

I would be excited to grow with Crusoe's legal and sourcing teams in Denver and to help them execute agreements at the pace the business demands. Thank you for your time and consideration. I look forward to the opportunity to discuss how I could contribute to your team.

Sincerely,
Adeline Bean
